## Statement of solidarity

Following the recent events in Sudan, The National Bureou of The National Federation Of Education - The Democratic Trend FNE expresses its full solidarity with The Sudanese people and with all the living forces, particularly in the educational sector, within the framework of "Sudanese Professional Association", and all that in their struggle for democracy, freedom, dignity, social justice and a brighter future, in which all the Sudanese citizens should have equal rights to freedom, social justice and de facto equality.

Recently the world media reported tens of thousands of Sudanese people taking to the streets all over the country to call for an end to all kinds of oppression, corruption and despotism. Not only that, but also to peacefully exert pressure on the Transitional Military Council to transit power back to civilians, a turning point that will certainly signal a significant progress towards democracy.

FNE firmly believes in serious the issues which are based on the common destiny that both history and geography have bequeathed on us both. It is imperative, therefore, that we strengthen the bonds of our common human destiny and that of our wounded homelands.

FNE brings warm greetings to SPA ,and congratulates it on both the unprecedented success of the strike and the rapid and spontaneous response coming from workers and employees of different sectors and areas ,particularly from those in the education sector, in spite of all the desperate attempts of intimidation ,terrorization and assaults orchestrated by the militias in the form of firing live bullets ,arresting militants, attacking sit-in areas, war media....etc.

FNE is in total and unconditioned solidarity with the Sudanese people. Who are struggling for their fair and legitimate rights.

FNE stresses that exercising the right to self- determination will never be defeated by whatsoever form of terrorizing and intimidation.

FNE invites both national and international progressive forces together with all actors all over the world to closely monitor the situation in Sudan and exert all types of pressure on the TMC to prevent an imminent threat to the freedoms, violation of rights, and lives of the Sudanese people.

Glory and immortality for martyrs. Long live the Sudanese Revolution

Long live the Will To Change, and freedom

For the National Office of the National Federation of Education, FNE the National Secretary General: Drissi Abderrazzak
